ACM Special Interest Group in Bioinformatics, Computational Biology, Biomedical Informatics

ACM SIGBioinformatics

The Biology scene of recent years has been characterized by relevant improvements in biological research sustained by the introduction of novel technologies for investigations of molecular machineries. A huge amount of data coming from such experiments has been stored in novel databases; new algorithms for studying functions, structures, and interactions of proteins and genes have been introduced; and, almost all "omics" areas have been touched by new data sources with large repositories, new computational tools and applications powered by new algorithms.

The ACM Special Interest Group on Bioinformatics, Computational Biology, and Biomedical Informatics (SIGBioinformatics) has been instituted in 2010 with the aim of focusing on research on bioinformatics data management topics, roughly covered by the so-called biological and biomedical data, knowledge, and information management. The focus of SIGBioinformatics is to bridge computer science, mathematics, statistics with biology and biomedicine sharing research interests in the management of data related to life sciences. The mission of ACM SIGBioinformatics is to support advanced research, training, and outreach in Bioinformatics, Computational Biology, and Biomedical Informatics by stimulating interactions among researchers, educators and practitioners from related multi-disciplinary fields.

The 2010 ACM International Conference on Bioinformatics and Computational Biology (ACM BCB 2010) was the first ACM conference in the areas of bioinformatics, computational biology, and biomedical informatics. SIGBioinformatics has been instituted as a result of the overwhelming interest and enthusiasm expressed by the participants of the 2010 ACM BCB conference. The ACM BCB conference participants are a community of researchers with diverse and heterogeneous educational backgrounds and with immense interests in areas such as genomics, transcriptomics, proteomics, metabolomics, systems biology, tissue engineering, medical data and image analysis. The result in ACM BCB 2010 was three days of enthusiastic interactions among researchers in this broad community about the study, development and applications of computational techniques for managing data related to biological and biomedical informatics problems.

The SIGBioinformatics Newsletter is a publication of the ACM SIGBioinformatics community. The aim is to report on the activities conducted by the community, and to publish early notes on current progress in bioinformatics and biomedical informatics areas. In addition, special articles will be published highlighting important developments in the relevant fields.

Researchers are invited to join and participate in SIGBioinformatics activities. SIGBioinformatics membership is open to both ACM members and non-members.

This edition of the newsletter, after a short presentation of the aim of the SIG, contains the initial remark of the SIG chair, a short report of the ACM-BCB 2010. Then it outlines the 2011 conference and present the SIGBioinformatics officers.

Notes from the Chair

SIGBioinformatics Conferences

Report on ACM BCB 2010 Conference, by General co-Chair, Aidong Zhang

I am glad to report that we had a highly successful ACM BCB 2010 conference, in Niagara Falls, New York, USA, on Aug 2-4, 2010. There were 195 conference participants who came from all around the world. The registration revenue was $106,866.00. In addition, the organizers of the conference were also awarded a US National Science Foundation grant of $24,500 which covered two Keynote Speakers’ travel costs, three
awards for the best paper, the best student paper, and the best poster, as well as 24 student travel support. In preparation for ACM BCB 2010, we received over 200 papers, workshop, and poster submissions. The conference program featured two keynote speakers, two tutorial lectures, two panel discussions, 37 regular papers, 27 short papers, 28 workshop papers, and 35 poster papers. In addition to the main conference, ACM BCB 2010 also featured four successful workshops: (1) Gene Networks and Pathway Analysis, (2) Graph Theoretic Approaches for Biological Network Analysis, (3) Immunoinformatics and Computational Immunology, and (4) Protein-protein Interaction Data: Management, Querying and Analysis.

The 2010 ACM BCB Conference achieved its goal of providing an interactive forum for professional researchers, practitioners, and graduate students from all around the world to discuss the latest advances in Bioinformatics, Computational Biology, and Biomedicine. New collaborations were formed during the conference between computer scientists and biologists. This annual flagship conference of ACM SIGBioinformatics is dedicated to the professional exchanges between scholars at all levels in the fields of computer science, computer engineering, applied computing, biology, medicine, biophysical sciences, and life sciences. We hope that it will soon become a premier conference with the highest citation-ratings in the fields of bioinformatics, computational biology, and biomedical informatics.

On August 4, 2010, the last day of ACM BCB 2010 conference, a panel was convened on ACM SIGBioinformatics formation. Participants have expressed overwhelming support for the Special Interest Group in Bioinformatics, Computational Biology, and Biomedicine (SIGBioinformatics) with many volunteers expressing interest to get involved in the organization. This unwavering support and enthusiasm enabled us to assemble SIGBioinformatics officers and management with broad expertise from both computer science and biology sides. We are also very happy to report that we assembled a highly prestigious advisory board.
Call for Paper of the 2011 ACM Conference on Bioinformatics, Computational Biology and Biomedicine (ACM BCB 11)

August 1-3, 2011, Chicago, Illinois

http://www.cse.buffalo.edu/ACM-BCB2011/

The ACM Conference on Bioinformatics, Computational Biology and Biomedicine (ACM BCB) is the main conference of the newly formed ACM SIG Bioinformatics.

This is the second year of the ACM BCB Conference. Over 200 people attended ACM BCB 10, which took in Niagara Falls, NY on August 2-4, 2010.

ACM BCB 11 will be held at the Hilton Suites Chicago – Magnificent Mile from August 1-3. The conference welcomes high quality, original research papers. Papers should contain new algorithms or novel computational approaches in the broad areas of bioinformatics, computational biology and biomedicine. Papers that use existing computational techniques in new and interesting ways leading to novel biological discoveries are also welcome. Topics of interest include but are not limited to:

- Genomics: Structural, Functional, and Comparative
- Molecular Networks: Proteomics, Transcriptomics & Metabolomics
- Phylogenetics at Gene and Genome Levels
- Computational Systems Biology
- Immunoinformatics and Computational Immunology
- Computational Epidemiology
- Biomedical and Translational Informatics
- Databases, Knowledgebases & Ontologies for Bioinformatics
- Machine Learning, Image Analysis, Knowledge Representation and Inference
- Integration of Biomedical Data
- Text Mining and Natural Language Processing in Biomedicine
- Hardware and Software Infrastructure for Biomedicine

**Important dates:**

Electronic submission of full papers: March 1, 2011

Notification of acceptance: April 15, 2011

Camera-ready submission of accepted papers: May 1, 2011

Conference dates: August 1-3, 2011

Workshop proposal submission: February 1, 2011
Tutorial proposal submission: March 1, 2011
Poster submission: April 30, 2011

**General Chairs**  
Robert Grossman, University of Chicago

**Program Chairs**  
Sun Kim, Indiana University Bloomington
SIGBioinformatics membership rates

Membership rates are:

- Professional: $25.00
- Students: $15.00
- Affiliate: $25.00
- Subscribers: $35.00

Professional and Student memberships refer to those who are already ACM Professional or Student members, adding a SIGBioinformatics membership. Affiliate refers to any non-ACM member who wishes to join SIGBioinformatics, only.

A subscriber is someone who subscribes to the SIBBioinformatics newsletter.

SIGBioinformatics Officers

Chair
Aidong Zhang
Professor and Chair
Department of Computer Science and Engineering
State University of New York at Buffalo (UB)
201 Bell Hall
Buffalo, NY 14260

Vice-chair
Gultekin Ozsoyoglu
Professor
Department of Electrical Engineering and Computer Science
Case Western Reserve University
10900 Euclid Avenue
Cleveland, OH 44106

Secretary-Treasurer
Armin R. Mikler
Associate Professor
Director of Computational Epidemiology Research Laboratory
Department of Computer Science and Engineering
University of North Texas
1155 Union Circle # 311366 Denton, Texas 76203-5017

Newsletter Editor
Pietro Hiram Guzzi
Assistant Professor
School of Informatics and Biomedical Engineering,
University "Magna Graecia" of Catanzaro,
Viale Europa (Località Germaneto), 88100 CATANZARO, ITALY
Board of Directors

Vasant Honavar  
Professor of Computer Science and of Bioinformatics and Computational Biology Director,  
Center for Computational Intelligence, Learning, and Discovery  
Atanasoff Hall Department of Computer Science  
Iowa State University  
Ames, IA 50011-1040

Sun Kim  
Division Chair  
Director of Bioinformatics Program  
Associate Professor School of Informatics and Computing  
Indiana University Informatics building  
901 Tenth Street Bloomington, IN 47408-3912

Vipin Kumar  
William Norris Professor and Head  
Department of Computer Science and Engineering  
University of Minnesota  
Minneapolis, MN 55455

Yi Pan  
Georgia State University  
Professor and Chair  
Department of Computer Science  
Georgia State University  
34 Peachtree Street, Room 1442  
Atlanta, GA 30302-4110, USA

Marie-France Sagot  
Research Director  
INRIA, Lyon  
France

Cathy Wu  
Edward G. Jefferson Chair of Bioinformatics & Computational Biology Director  
of Center for Bioinformatics & Computational Biology (CBCB)  
Professor of Computer & Information Sciences Professor of Biological Sciences  
Director of Protein Information Resource (PIR)  
Delaware Biotechnology Institute  
University of Delaware  
15 Innovation Way, Suite 205  
Newark, DE 19711

Director of Conferences  

Vasant Honavar  
Professor of Computer Science and of Bioinformatics and Computational Biology Director, Center for Computational Intelligence, Learning, and Discovery  
226 Atanasoff Hall
Awards Committee

Chaoyang (Joe) Zhang (Co-Chair)
Director and Associate Professor
School of Computing
University of Southern Mississippi
118 College Drive # 5106
Hattiesburg, MS 39406-0001

Wei Wang (Co-Chair)
Professor
Department of Computer Science
University of North Carolina
Chapel Hill, NC 27599-3175

Jonathan Dennis
Assistant Professor
Department of Biological Science
King Life Sciences Building, 2023 319 Stadium Drive
Florida State University
Tallahassee, FL 32306-4295

Tony Hu
Drexel University Associate Professor
Editor-in-Chief, Int. Jour. of Data Mining & Bioinformatics
IEEE CS Bioinformatics & Biomedicine Steering Committee Chair
IEEE CS Granular Computing Steering Committee Co-Chair
College of Information Science & Technology
Drexel University, Philadelphia
PA 19104, USA

Parthasarathy Srinivasan
Professor
Dept. of Computer Science and Engineering and Department of Biomedical Informatics
The Ohio State University
Columbus, OH-43210, USA

Zhongming Zhao
Vanderbilt University Medical Center Chief Bioinformatics Officer
Vanderbilt-Ingram Cancer Center (VICC) Associate Professor,
Department of Biomedical Informatics Vanderbilt University Medical Center

Information Director

Mohammed Zaki
Professor
Department of Computer Science
Rensselaer Polytechnic Institute
110 8th St.
Troy, NY 12180-3590

**Associate Information Directors**

Guo-zheng Li  
Associate Professor  
Center for TCM Informatics  
Department of Control Science & Engineering,  
Tongji University,  
Shanghai 201804, China

Li Liao  
Associate Professor  
Computer & Information Sciences  
University of Delaware  
Newark, DE 19716

Yunlong Liu  
Assistant Professor  
Department of medicine  
Division of Biostatistics  
Indiana-Purdue University at Indianapolis (IUPUI)  
Liaison to Industry and Other Societies

**Liaison to Industry and Other Societies**

Sanjay Ranka  
Professor  
Department of CISE  
University of Florida, Gainesville, FL 32611

**Advisory Board**

Mark Borodovsky (Chair)  
Director, Center for Bioinformatics and Computational Genomics  
Regents' Professor  
Department of Biomedical Engineering and Computational Science and Engineering  
Georgia Institute of Technology  
Atlanta, GA

Pierre Baldi  
Chancellor's Professor in the Department of Computer Science,  
School of Information and Computer Sciences,  
Director, Institute for Genomics and Bioinformatics,  
University of California-Irvine  
Irvine, CA

Jeff Bennetzen  
Member of the US National Academy of Sciences  
Norman and Doris Giles Professor and Georgia Research Alliance Eminent Scholar
Head of Department Of Genetics,
University of Georgia
Athens, GA

Volker Brendel
Bergdahl Professor of Bioinformatics
Iowa State University
Department of Genetics, Development and Cell Biology
2112 Molecular Biology Building
Ames, IA

Robert Cottingham
Group Leader
Computational Biology and Bioinformatics
Oak Ridge National Laboratory
Oak Ridge, TN

Dmitrij Frishman
Professor
Technische Universität München
Wissenschaftszentrum Weihenstephan
Am Forum 1, 85354 Freising, Germany

Mark Gerstein
Albert L. Williams Professor of Biomedical Informatics
Co-director the Yale Computational Biology and Bioinformatics Program,
Yale University,
New Haven, CT

Nick V. Grishin
Howard Hughes Investigator,
Howard Hughes Medical Institute
Department of Biochemistry
University of Texas
Southwestern Medical Center
Dallas, TX

Minoru Kanehisa
Director and Professor, Bioinformatics Center, Institute for Chemical Research,
Professor, Human Genome Center, Institute of Medical Science,
University of Tokyo
Gokasho, Uji, Kyoto 611-0011, Japan

Nikos Kyrpides
Head, Genome Biology Program
DOE-Joint Genome Institute (JGI),
Walnut Creek, CA

Meral Ozsoyoglu
Andrew R. Jennings Professor of Computing
Department of Electrical Engineering and Computer Science
Case Western Reserve University
Cleveland, OH
Sir Richard John Roberts
Nobel Prize Winner
Chief Scientific Officer
New England Biolabs
Ipswich, MA

Dong Xu
James C. Dowell Distinguished Professor
Director, Digital Biology Laboratory
Chair, Computer Science Department
University of Missouri-Columbia
201 Engineering Building West
Columbia, MO 65211-2060

**Important Dates**

Publication dates 30th January, 30th May, 30th September
Due dates 1st January, 1st May 1st September.
